OBJECTIVE

To start my career as a Java Web Developer where I can learn and grow by building web applications using Java and modern frontend tools. I want to work in a team, improve my skills, and help create useful software.

SKILLS

- **Programming Languages:** C, Java, JavaScript (ES6 basics)
- **Web Technologies:** HTML5, CSS3, Bootstrap
- **Backend & Server-side:** JSP, Servlets, Core Java (OOP concepts)
- **Databases:** MySQL, SQL fundamentals
- **Operating Systems & CLI:**
  - Linux Command Line (basic commands, file operations)
  - Windows Command Line (CMD) & Batch Script basics
- **Tools & Platforms:** Git, GitHub, MS Excel
- **CRM & Business Tools:** Basic experience with CRM tools (data handling, customer records)

PROFESSIONAL EXPERIENCE

Back Office Executive
Voltas Service Franchise – Buldhana, Mh
Feb 2022 - Nov 2024

- Managed customer records and service data efficiently using MS Excel and CRM Tools.
- Collaborated with service technicians to ensure timely resolution of customer complaints.
- Improved documentation processes, reducing error by 20%
- Communicated with customers to handle inquires and service feedback.

PROJECTS

PollyClinic : Hospital Patient Appointment Booking Web App (*Group project*)
Java, JavaScript, Servlets/JSP, MySQL

- Developed a hospital appointment booking system to manage patient-doctor scheduling.
- Implemented role-based access for patients, doctors, and admin.
- Designed a responsive user interface for booking and managing appointments.

Go-Fitness : Go-Fitness is a frontend project. It serves as a fitness hub featuring workout plans, health tips, nutrition guides, and progress tracking to help users stay motivated and achieve their fitness goals.
HTML, CSS, Bootstrap, JavaScript

- Workout Plans - Customized exercise routines.
- Nutrition Guides - Healthy eating recommendations.
- Progress Tracking - Monitor your fitness journey.
- Health Tips - Expert advice for better results.

Checking Only When It Is Necessary : Enabling Integrity Auditing Based on the Keyword with Sensitive Information Privacy for Encrypted Cloud Data. (*Final Year Academic Project*)
HTML, CSS, JavaScript, MySQL, JSP/Servlets

- Developed a web app for securely auditing encrypted cloud data while preserving keyword privacy.
- Implemented integrity verification mechanisms to detect unauthorized modifications to cloud data.
- Designed a user-friendly interface for keyword-based searching and auditing using JSP and Servlets.
- Utilized MySQL for database management and implemented encryption algorithms for data security.

EDUCATION

Bachelor's Degree : Computer Science, 12/2024
Sant Gadge Baba Amravati University
CGPA : 6.90/10

Diploma : Computer Science, 08/2021
Maharashtra State Board of Technical Education, Mumbai

CERTIFICATION & ONLINE TRAINING

- Java Full Stack Developer – **Fortune Cloud (Pimpri, Pune)**
- Learn IT® Certified Software Engineer (Primary Skill: Java) - **Learn IT**
- JavaScript Crash Course **– Udemy**
- Windows Command Line (CMD) & Batch Script Management **– Udemy**
- Linux Command Line Terminal Basics for Beginners **– Udemy**
